

Bankable Visa Corporate Cards Live.

London, UK – 17 July 2019 - Bankable, the global architect of digital banking and payment solutions, is delighted to announce that 10 weeks following the beginning of its partnership with Visa, the first Bankable's Visa cards are now in clients' hands.

Global firms, Banks and Fintechs can now leverage Bankable's multi-currency platform to launch corporate, purchasing, payroll and travel expenses programmes. Our solutions are available in prepaid, physical and virtual Visa cards.

Our API integrations with approved partners mean you can launch Bankable-branded Visa cards in 1 week and custom-designed cards in as little as 4 weeks.

Eric Mouilleron, Founder & CEO of Bankable, said: "On April 30 this year, we inked a strategic investment and a global partnership with Visa. On May 15, 2019, we communicated to our clients that our new Visa Corporate card solution will be live on July 10. On July 10, our Visa cards are live and delivered to our clients. Awesome! Visa and Bankable teams worked hand in hand with a strong sense of urgency to respect our clients' time to market priorities."

About Bankable:

Bankable is a global digital core banking platform and Banking as a Service provider. We partner with financial institutions, corporates and FinTechs to deploy, orchestrate and operate highly differentiated payment solutions.

Bankable provides an exhaustive range of digital banking and payment solutions under a "Banking as a Service" model. Our core digital banking platform is available in white-label or via APIs, enabling our clients to quickly deploy banking solutions — including digital banking solutions, virtual account solution, payment processing services, card programmes and mobile wallet services. Our client base includes both regulated financial institutions (Banks, Electronic Money Issuers, Payment Institutions, Insurance companies...) and non-regulated global corporates and FinTechs who use our platform and Partner's Ecosystem to deploy digital banking and payment services and generate new revenue opportunities.

Bankable has successfully delivered projects for demanding tier-1 banks and FinTechs for the last eight years. Bankable's rapid implementation approach enables clients to generate revenues faster, increasing their valuation and attractiveness. By promoting pilot-based-experimentation, Bankable allows its customers to quickly launch, test and validate a new service before moving towards a seamless deployment and generate new net revenues.
